Dear Members of the Board,

I am writing to express my interest in serving as the Vice Chair of the Energy and Environment Committee for the Southern California Association of Governments. As a dedicated member of the Adelanto City Council and a Regional Council member representing District 65, I believe my experience and commitment to our region uniquely position me to contribute effectively to this committee.

Over the past two years, I have made it a priority to attend every meeting of the Energy and Environment Committee in person. This consistent engagement has deepened my understanding of the critical issues we face in energy management and environmental sustainability. Additionally, as a member of the San Bernardino County Transportation Board, I recognize the vital connection between transportation planning and our energy and environmental goals. Our region's future planning must reflect a cohesive approach that addresses both transportation and environmental stewardship.

As we witness accelerated economic development in our region, it is imperative that we ensure proper representation on this committee. The decisions made regarding energy and environmental policies will have lasting impacts on our communities, and I am passionate about advocating for balanced growth that respects our environment while promoting economic vitality.

I am grateful for the opportunity to express my interest in this role and thank the board for considering my application. I am committed to working collaboratively with all board members to advance the goals of the Energy and Environment Committee and to foster a sustainable future for Southern California.

Thank you for your time and consideration. I look forward to the possibility of serving in this capacity.

Sincerely,

Daniel J. Ramos
Mayor Pro Tem, City of Adelanto
